

25X1A9a

Approved For Release 2000/08/29 : CIA-RDP79-01041A000100040208

Security Information

13 February 1953

25X1A6a

1. Secured DD/A's approval of the field position for the DD/I [REDACTED] For administrative convenience the position will be carried in the O/RR T/O although it is recognized that [REDACTED] will also represent, as appropriate, other DD/I offices.

25X1A9a

2. Requested of the cable secretary through [REDACTED] authority for Dr. Guthe to release cables as O/RR designate.

25X1A9a

3. Resubmitted to the DD/A for approval the O/CI proposal for an increase in T/O of 17 positions. This request had been approved by the various offices in the DD/A complex and was pending [REDACTED] signature at the time of receipt of the Budget review letter. [REDACTED]

25X1A9a

[REDACTED] had requested that the action be held pending determination of the effects of the Budget review. Based on the Agency policy governing the review, I resubmitted the request for DD/A approval.

25X1A9a

3. Discussed with [REDACTED] of the Regulations Control staff his plans for securing revised dissemination lists. I urged that a well conceived memorandum be developed for guidance of the offices in submitting current distribution requirements.

25X1A9a

4. After discussion with [REDACTED] requested the office of Personnel to locate a well qualified secretary for temporary detail to the Special Evaluation group in the Pentagon.

5. Referred to DD/A the O/CD request for the construction of a masonry vault to provide adequate storage space for the Agency's central file of special intelligence materials. The vault would be built between wings 1 and 2 of the south side of Q building. Provision for this requirement, as well as the storage vault for the library, will have to be made in connection with space reallocations currently under review with [REDACTED]
